DISTANCE EDUCATION UPDATE

Wednesday, October 4 2007, at SEAFast Center Distance Education Class, Dr. Purwiyatno Haryadi lectured on Calculation of Thermal Process Adequacy as part of Lecture on Food Canning.

Dr Purwiyatno Hariyadi lectures on Calculation of Thermal Process Adequacy at SEAFast Distance Education classroom for students of IPB-Bogor and UNHAS-Makassar.

This presentation was intended for students from Bogor Agricultural University (IPB) and from Hasanudin University of Makassar, South Sulawesi.

The purpose of this trial distance education lecture between IPB-UNHAS is to see the effectiveness of the lecture. There were 30 students from IPB 24 students from UNHAS. Several other lectures were also presented during the teaching trial; among them were those presented by Dr. Feri Kusnandar of IPB (Lecture Coordinator), Dr. Meta and Dr. Abubakar Tawali of UNHAS. For more details on distance education program of SEAFast Center; please contact Dr. Lilis Nuraida (lilis@seafast.org).
